

KELLY NICOLAISEN PHOTOGRAPHY

Kelly Nicolaisen Crosses Boundaries as she composes the world into a colorful still life. Her style playfully blurs the line between portrait and landscape. The figures that she photographs become characters in the fantasy of their surroundings. Her bold hues and attention to space make for striking compositions that turn everyday life into a surreal experience. Captivated by the strangeness of reality she is inspired to perpetuate humor with her camera in her own voice.

Kelly Nicolaisen previously lived in San Francisco where many of her works were created, drawing on the city as a vast wealth of inspiration. She now resides in Point Richmond where she and Jacinto Castillo opened Mom & Pop Art Shop right around the corner at 24 West Richmond Avenue. She also works for the Oakland Raiders & Golden State Warriors as a private event photographer.

She received a BA from the Academy of Art University in San Francisco and also holds an associate degree in Marketing and advertising.

Please stop by her shop and see what Mom & Pop are all about.
